JULY 2006

Hi Colin,

The "All Season" playing surface that you installed last year is just short of magnificent. It gives both batsmen and bowlers a REAL chance to show their abilities.

The old style pitches would wear out and flatten quickly thus giving the Batsmen an unfair advantage after 15-20 overs. This new style pitch keeps the balls in fantastic condition for the entire game.

In a nutshell, it is as close to "turf" cricket as you can get. It keeps the standard of a game at a high level, good batsman can make runs, good bowlers will take wickets. We have several ex district players and they swear by it.

Last year we played Balwyn sub district team in a practice match and they had top quality players in that team, their comments regarding the surface were extremely positive.

In closing I would like to state that we would not be playing on any other type of synthetic surface on any of our grounds. You will also find that you will get complaints about the surface coming from technically deficient players!! which I am one.

In our humble opinion, this surface is good for cricket.

Regards,

Ric Tenuta  
President Rosebank Cricket Club
